2015/16 Pre-Purchase Agreement

It is agreed that delivery will be made during Santa Fe Propane's normal delivery schedule and delivery policies, and Pre-Buy customers must take at least the 125 gal minimum delivery. Santa Fe Propane agrees to deliver the gallons purchased at \$1.87* per gallon (plus your location tax rate). Do not delay on your purchase as heavy last day volume can cause you to miss the pre-buy. If you have more than one account please make sure that you buy pre-buy for each account as we cannot move pre-buy from one account to another. Please make sure we have the right account number(s).

PRE-BUY DELIVERIES WILL NOT BEGIN UNTIL AFTER OCTOBER 15, 2015
